

## ECO MPS<sup>2</sup>

Energy Consumption Optimized  
(Low-noise)

Modular Press System  
Scalable<sup>2</sup>

From manual to semi automatic  
to full automatic

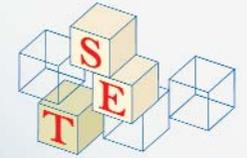

Cost optimized first step into OE-Quality

From small lot production to high runner production

SET. get your vision to reality.

## ECO MPS<sup>2</sup>

### ECO MPS<sup>2</sup> Philosophy:

- 4 automation levels with additional 2 options available
- Modular expandable  
(1 module - 2 presses) - plug and play
- Space-saving compact design
- 100% in OE-Quality (process controlled)
- Innovative energy-efficient supply (cost reduction) and low-noise
- new universal material distribution concept for PC + CV tools with 2 or 4 cavities per press
  - reduced set up time
  - reduced tooling costs
- 180t press for automotive + non-automotive brake pad production
